## EXPERIENCE

### Markham African Caribbean Canadian Association, Markham — *Digital Literacy Instructor*

MARCH 2019 - AUGUST 2019

- Designed accessible programs tailored to aid in the success and advancement of seniors so they could gain foundational skills in digital literacy
- Supported Seniors to learn how to navigate unfamiliar technology so they could navigate the internet safely and independently
- Designed fliers to support outreach efforts for the company so they could catch the eyes of their intended audience
- Collected and managed participant data for evaluation and records so that it could be used for reporting and future programs
- Provided IT support for the Markham African Caribbean Canadian Association to enhance smooth day-to-day operations

### SkillHat, Remote — *Web Developer*

JANUARY 2024 - FEBRUARY 2024

- Designed and implemented user interfaces for projects, focusing on usability and aesthetics so that potential clients will have a pleasurable experience reviewing my work.
- Utilized JavaScript to add interactivity and functionality to web applications, including features such as form validation and dynamic content so that I can demonstrate my skills to potential clients.
- Demonstrated ability to create and manage branches, merge code changes, and resolve merge conflicts using Git so that errors were reduced to a minimum increasing productivity

### World Innovation League (WIL), Remote — *Web Developer*

MARCH 2024 - MARCH 2024

- Implemented responsive design principles to ensure optimal viewing experience across various devices so that a wider range of users have the flexibility to access information on local recycling via more digital devices.
- Collaborated with designers to ensure the website's visual aesthetics aligned with the original design so that their aesthetic vision could increase session length and user retention.

### Riipen, Remote — *Web Developer*

MARCH 2024 - APRIL 2024

- Facilitated correspondence with the client to understand their requirements, gather feedback, and ensure alignment with their vision and brand identity.
- Worked closely with designers to translate client feedback and design mockups into HTML and CSS code, ensuring consistency and fidelity to the original designs so we could visually appeal to the client's target audience of children
- Implemented responsive design techniques to optimize the website's layout and functionality across various devices and screen sizes to improve accessibility for low-income users who may not have access to computers
